GARLINGHOUSE SMALL HOMES

The L. F. Garlinghouse Company, Inc., 115 Eighth Avenue, East, Topeka, Kansas, is the oldest and largest firm in the house plan business and has been helping thousands of prospective homebuilders to obtain homes that are distinctive—homes that express individuality. Homes built from Garlinghouse plans are practical homes—homes that utilize all available space to the best advantages. Garlinghouse designers, draftsmen and builders with many years experience helping people build homes of maximum quality and minimum expense

have prepared a detailed plan for each of the designs shown in their books.

The plans shown in this book represent only a fraction of the total number of designs which are available to you. We have 22 different plan books listed on the inside back cover of this book and in them are more than 1250 designs from which you may choose the one you wish to build.

As soon as you have selected a Garlinghouse plan, send us your order and we will see to it that it is in the mail within twenty-four hours after receipt.

Order Your Plans This Simple, Easy Way!

We have available to you the complete working plans, specifications, lumber and mill lists for the designs shown in this book and all of our other books (listed on the back cover) at the prices listed with the design (\$7.50 to \$25 per set). Your plans will be in the mail within 24 hours after we receive your order. Here's what you get:

PLANS—The complete working plans consist of blue prints of all four elevations, basement and all floor plans and details showing built-in features and intricate parts, all drawn to a scale of not less than one-fourth inch to one foot. Also, a plot plan in blank to be filled in locally.

SPECIFICATIONS—The specifications explain in detail the construction of the house

from the excavation to the interior decoration.

LUMBER AND MILL LISTS—The lumber and mill lists consist of an itemized list of lumber and mill materials needed to construct the building and state where each item should be used.

In using Garlinghouse plans, the chance of costly errors is reduced to a minimum.

No. 94—The advantages of a dining alcove in connection with a living room is exemplified in this careful planning. Though ordinarily the family meals will be served in the dinette space in the kitchen, ample room is provided for large gatherings by utilizing some of the living room space in addition to the alcove. The overall dimension in width can be reduced to 40 feet, by the elimination of the garage and breezeway, thus making it suitable for a smaller size site.

No. 1347 — This beautiful little cottage may be built with the side to the street as shown here or with the end fronting the street. It will be hard to conceive of a more conveniently arranged plan than is shown for this cottage. The plan consists of a splendid living room, two lovely bed rooms, a small dining room with built-in buffet, bath, large closets and kitchen. The stairs from the hall lead to a fine large attic which may be finished, if desired.

No. 1513—A casual glance at the long horizontal lines of this frame design will not reveal the fact that the plan might be built on a site just a little larger than the ordinary city requirements, or by elimination of the attached garage its 36½ foot frontage may be easily set on a 50 foot site. A maximum amount of space is afforded for the least amount of money by the use of straight partition lines and provisions for a full basement.

Into the development of these plans has been packed over 35 years experience helping thousands of families build homes of maximum quality at minimum cost.

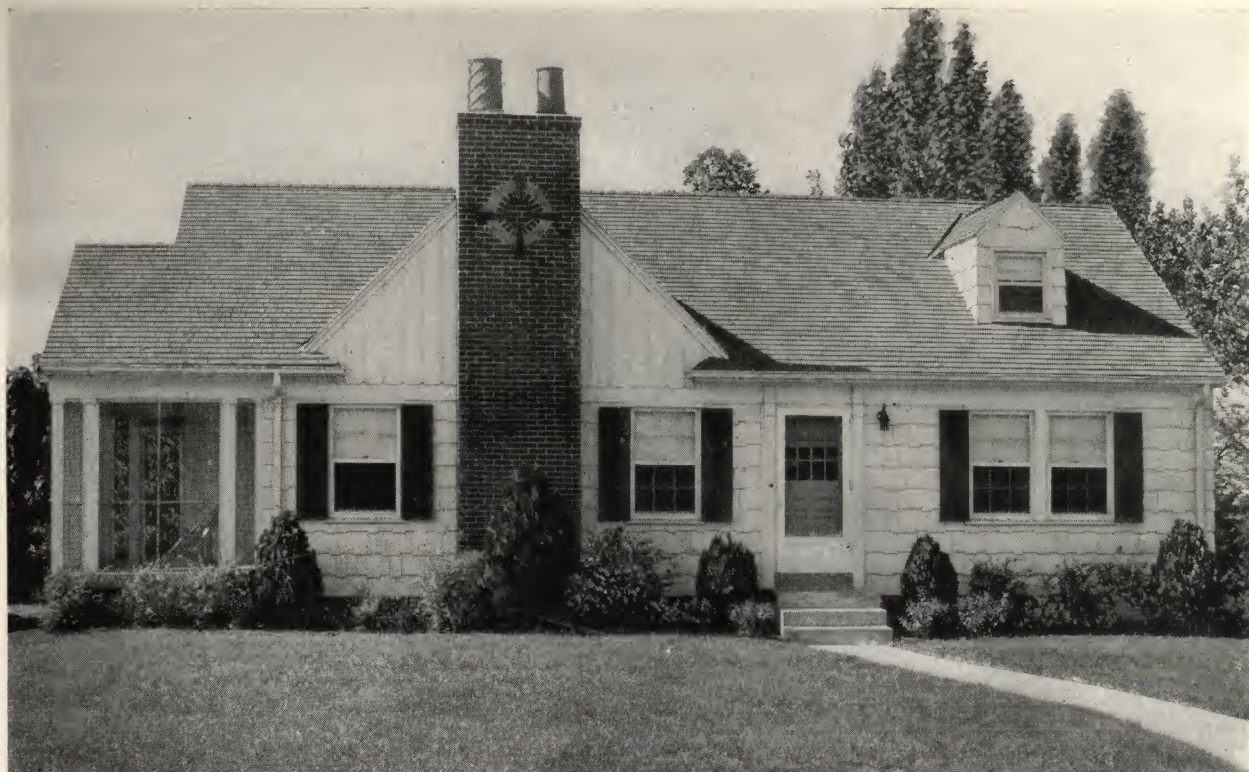

No. 1555—The predominating feature of this small frame design in vertical batted siding is the freedom in use of windows which gives each room an abundance of light and ventilation, yet not hindering the furniture arrangement. Another factor worthy of consideration is the prevailing convenience about the kitchen with its useful breakfast nook, easy access to the three quarter basement and rear service door.

No. 1735—A design for a 50 foot lot with all of the luxuries of the larger rambling types is illustrated in this modern-day planning. The large living room with fire-place and large picture window, the expandable dining room and the terrace, with its barbecue oven, opening off the dining room and within easy reach of the kitchen, affords all of the opportunities of year-round living. A disappearing stairway to the attic offers adequate storage space thus leaving the full basement for recreation, laundry, heating and hobby rooms.
